

Saving and Using PDF Distiller Settings For InDesign

Step 1 - Place the Distiller settings into this folder hierarchy. Hard Drive > Library > Applications Support > Adobe PDF > Extras > Note our setting are called Freedom Printing Settings.

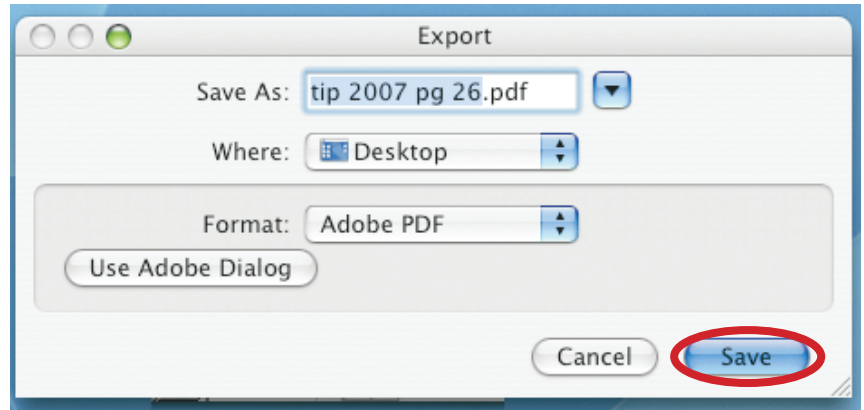

Step 2 - Open InDesign. Go to the menu to File > Adobe PDF Presets > Define. Then Choose Load. Drive to the same area that you placed the setting. Hard Drive > Library > Applications Support > Adobe PDF > Extras > Freedom Printing Settings. Select Open.

Step 3 - The New setting will appear. Now select Done. You can now export your document. Go to the Menu to File > Export. Select Save.

Step 4 - Under the Adobe PDF Preset toggle to Freedom Printing Setting. Now select Export.
